

《How Man Should Reveal His Inner Self – Recitation》

《Prayer for World Peace》

《Divine Spark IN once》

《Talk by Yuka-sensei》

Everyone, thank you very much for participating in the Rebirth of Human Divinity Festival of 2025.

In order to ensure the success of today's online program, earlier this morning, prior to this event, I, together with the staff, performed Divine Rituals at the Fuji Sanctuary, carrying out our role of sanctifying and preparing this sacred place.

Thankfully, everything was a great success and completed without any hindrance.

Regarding the Mitama-shiro written by everyone here, Masami-sensei told us, "The souls whose names are written here have already become Deities." Therefore, purification for your departed relatives is no longer necessary.

However, when you write on the Mitama-shiro words such as "The ancestral spirits of the XX family" or the names of departed loved ones, then Goi-sensei, accompanied by the Mitama with whom he has connections, will guide not only them but also the surrounding spirits to ascend to higher realms of the spiritual world and the Divine world.

Each year, you are fulfilling the role of being the starting point for such a sacred working.

What I personally realized again during the time of communion with the Mitama-shiro is this: of course, those who, while living in this physical world, continually prayed the Prayer for World Peace, at the very moment they leave their physical body, they can see and feel all of the work they have done throughout their life. They are deeply moved, realizing, "What we accomplished was far greater than we had imagined," and from that moment they give us even stronger support, with all their heart and soul, to carry on the mission they themselves have handed down.

Not only that, but I also strongly felt, as a living resonance, that they are constantly sending us their profound love and gratitude.

At the same time, even relatives and kin who, while alive in this world, may have been skeptical, negative, or showed no understanding of our activities—at the very moment of their passing, thanks to the accumulation of our INs and prayers, they are led by Goi-sensei together with the Light into the world of the Deities.

At that moment, they truly understand our World Peace activities, and instantly they become one with us, working together in unity.

Maki-sensei told us that since the name of the September Grand Event was changed to "the Rebirth of Human Divinity Festival," an even greater evolution is occurring. Within that, every part of the program consistently affirms: "We are Divine," and by us, as beings of Divinity, carrying out this program with responsibility, all the boundaries Masami-sensei spoke of will be dissolved. What remains is the realization that "Truly everything is Divine." That, she said, is the time for us to experience this profound truth.

Rika-sensei also shared: "Those who are able to carry out this sacred work, those who have the will to do so, may exist somewhere if we search. However, the number of people on Earth who can actually shoulder this mission is still very few. Representing them, we must recognize and understand our own Divinity and fulfill our

sacred role in this Festival today.”

In this way, we three sisters exchanged our reflections with one another.

Afterwards, we spoke with Masami-sensei to confirm what we had shared. She responded, “That is truly so.”

She further said, “As for the relatives and kin of the Mitama, they are rejoicing—rejoicing so greatly—and they are here. Yet, in truth, they are completely free, without any limitation. Therefore, the spirits and Divine Beings who come on this day are entirely filled with happiness itself.”

As Rika-sensei also mentioned, “We are beings who live eternally.”

This program allows us to feel that truth. And in one sense, it is also our preparation for death.

I realized again that this is indeed the very moment when we can experience the shining, beautiful, blissful Truth itself.

Masami-sensei told us, “The Mitama are truly rejoicing. They are rejoicing in the other world. Do you know why we always wear such splendid ceremonial attire, these resplendent haori and hakama? It is because the Mitama are happy.”

Masami-sensei also told us, “If the Mitama were in misfortune, if they were suffering, then surely we would be participating dressed in black mourning clothes. But because this is truly something joyful, that is why we participate dressed as we do.”

With regard to the “Global Prayer” that we will also perform today within the program, it is connected to what Maki-sensei said about “the boundaries dissolving.” The Mitama around the world are waiting for your prayers, waiting for the Light. They are truly waiting.

Our mission is not only for Japan, nor only for the souls around us. We are saving the Mitama of the whole world, those who have departed in various ways.

The more we pray, the more those souls too will enter into the world of Light. In that way, they become our comrades.

Thus, all together, once again today, we will offer the “Global Prayer.”

There is a world here where all people throughout the Earth can finally return. It is you, the members, who are building this world. Today’s ceremony is one where the departed watch over this very process.

Once again, through today’s “Global Prayer,” I felt that at that very moment, the Mitama of the world enter into the Light, become comrades, and join together in this sacred mission.

Regarding the “Prayer for the World of Delusion,” which we carried out beforehand though it is not included in today’s program, Masami-sensei said, “Of course they are lost, because there is no one else to do this work for them.”

Earlier, Rika-sensei also said, “The more the number of those lost increases, the more Light and Truth fail to reach them, the more human beings too will begin to lose their way. This is because those in the other world begin to rely upon the physical.”

But Masami-sensei explained, “The members’ power, your prayers, truly possess the ability to sweep away and purify, and to raise up those souls dimensionally.”

Therefore, regardless of today’s program, I again felt from Masami-sensei’s words that the Light of the Divine

Spark IN, our prayers, and the seeds of Truth are reaching those souls as well, saving them all. I am deeply grateful that today, once again, we are able to carry out this program together online with all of you, the members.

The departed relatives of each of you are truly rejoicing, shining, and watching over you with love and gratitude.

Thus, I would like us to offer our prayers today not only for ourselves, not only for Japan, but for the spirits who have left their physical bodies all over the world.

Thank you very much.

### 《Time to Send Gratitude to All Connected Mitama》

### 《Global Prayer》

### 《Prayer of Gratitude》

### 《Talk by Masami-sensei》

Today, as I came to the Fuji Sanctuary, I saw how each one of the staff members was so earnest in forming the INs and offering prayers for various events and circumstances around the world.

They expanded their awareness to all humanity, to the natural world, to the issues of war and economics, and continually performed prayers and INs to draw forth the Divinity of each and every human being.

As I watched the staff's prayers on the screen, I thought how the words and consciousness they emitted were spreading to each and every person in humanity. I was deeply moved and prayed together with them.

And for all of you members, even if you cannot come here, even if you are in the hospital due to illness, within your soul the "Light of Divinity" is firmly present.

Therefore, whether each one of you is in a hospital, at home, whether you are injured, or even if you can no longer walk—your way of living, that Light, is reaching, through your connections, countless people around the world who are suffering, grieving, lacking money, or being oppressed in various ways.

Thus, I feel a great pride in being here and praying together with all of you.

Even in my absence, the prayers, INs, words, and love offered earnestly by the staff and members are reaching all of humanity, and even beyond humanity to animals and plants, preventing the Earth from descending into a state where we no longer know what will happen.

Without all of you who are connected to the Fuji Sanctuary—staff, members, and many supporters—this Earth would be overwhelmed by the selfish ways of so many people, by nations trampling over borders, fighting neighboring countries, endlessly struggling to seize what belongs to others.

If such movements were left unchecked, when plants and other sources of food are exhausted, nations would cross borders to occupy other lands and fight to plunder them, leading to unthinkable circumstances.

Together with your prayers, I also prayed that across all borders, all humanity would be equal, that all would receive what they are meant to receive, and that what can be shared would truly be shared—that such a spirit may once again be revived within humanity.

But it is truly precious that so many of you members and staff come to the Fuji Sanctuary, and that you continue to pray simultaneously in your own countries and regions—the Light, the Divine words, and the energy you generate are invaluable.

For the Light of your prayers is greatly diminishing the impact of volcanic eruptions of Mount Fuji, earthquakes, tsunamis, and all the other calamities that could befall this Earth at any time.

Even when members are lying in bed, unable to come here, your prayers—"May Peace Prevail on Earth," "May Japan be at peace," "May the Earth be at peace"—are energy that moves everything. Your energy envelops the Earth and saves humanity.

Therefore, every time I come here, I feel profound gratitude for the very existence of each and every member.

Even if you cannot come here, even if your body is in pain, even if you have grown older, the Light energy of your prayers—"May Peace Prevail on Earth"—resounds, and through your prayers I myself receive energy and can remain well.

I am still strong enough to walk all throughout Japan on these very feet, and to engage in dialogue together with you and with the staff in this way.

You are all earnest, pouring out all your energy. In this way, we are returning the energy of life to humanity.

I truly live. Until the very end of my life, I will continue praying together with you, so that the world and the Earth may be spared from further suffering, famine, wars, and the bombs that crush other nations—so that the Divine Mind may permeate deeply into many people, I continue to pray with that vision in my heart.

It is not only I who do this. It is all of you members and all of you staff.

Though unseen, it is we who are praying, "May Peace Prevail on Earth," praying for the Sacred Resurrection of all humanity, saving everything. Therefore, I once again express my gratitude to each and every one of you.

I am still alive. I am still walking. It is thanks to your energy.

And at the same time, seeing all of you offering your prayers for humanity and for the Earth moves me deeply, fills me with joy, and makes me think, "I must also give my very best."

This too is thanks to all the staff and all the members. Let us all continue our efforts together. Thank you very much.

### 《Offering of Flowers》

The End
